Contents

Use the necessary tools to perform analysis of the binaries provided. There is no source code provided only the binaries Please submit write-ups of your analysis. Your points will be based on completeness of analysis, your understanding of the problems, and if you were able to achieve the goals. In addition an 'answer.py' file for each problem to automate the solution is required on delivery. Each problem is worth 15 pts for a total of 45pts.

Problem 1

Binary p1:
Host: fitctf.hackingspacecoast.com
Port: 771
Solution:

Problem 2

Binary p2:
Host: fitctf.hackingspacecoast.com
Port: 772

Solution:

Problem 3

Binary p3:
Host: fitctf.hackingspacecoast.com
Port: 773
Solution:
